TESTIMONIALS

Christopher Brand

Always a good experience, from the ladies behind the reception being helpful and welcoming to each of the dentists I've dealt with being knowledgeable, personable and showing genuine interest and not just trying to sell the most expensive product I might loosely need.

Have been coming here for years and will continue to do so!

John David

Regular here since the 70s.

Guess why!

Variety of issues all resolved.

Martin Morgan

I have nothing but praise for Judith, she is a Marvellous dentist and has looked after my ageing teeth brilliantly. I consider myself very fortunate to be in such good hands.

Martin Morgan

Bronwyn Jacobs

My daughter had to have an extraction done.

After a terrible experience at another dentist, I was recommended saving smiles by a friend.

I cannot tell you how amazing Sarah was with my daughter . So much honesty ,respect and humour was used to calm her fears and it was over in no time.

I'm so grateful to have found this dentist

...well worth the drive .

Sophie Butler

SS at Weedon are great. I get on very well with the dentist that I use there. I have been going there for years and do not intend to change.

Easter without Cavities

1. Confining the eating of sweets, chocolates and sweet desserts to meal times helps to neutralise the negative effects on teeth at one time. Continually exposing teeth to food can damage the tooth enamel which usually occurs when you nibble on sweet, sugary snacks in-between meals.
2. Be aware eating toffees and hard sweets can compromise fillings
3. Allow 30 minutes before brushing teeth after eating as your enamel is still vulnerable to damage.
4. Despite the excitement of the change in routine, make sure you don't neglect brushing your teeth twice each day.

PRACTICE NEWS

Many happy stories and achievements over the winter period. Lots to celebrate in this edition!!

A big welcome to Sarah who joins us at Saving Smiles Weedon. With her experience as a dental nurse and extensive knowledge, you can rest assured that you are in capable hands.

We are proud to announce that Monika has passed her national dental nursing exams. She is now fully accredited and qualified.

Big Congratulations, Monika!

Dr. Shah and his two sons have returned from Mozambique where they delivered dental care and oral health education to disadvantaged rural communities through a dental charity. 900 patients seen and over 2000 teeth extractions carried out.
