

### PRACTICE MEMBERSHIP

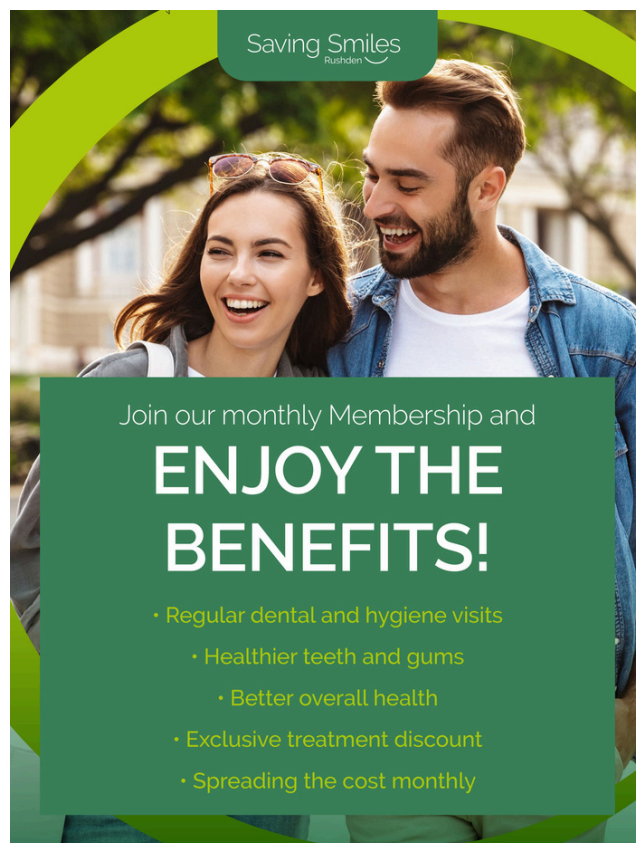

Most people want to optimise the health of their teeth and gums in order to retain their own teeth for as long as possible so we've developed a specially priced package of care that does just that.

At Saving Smiles we encourage preventative techniques – Regular check-ups mean that we can catch any signs of gum disease and tooth decay before they become costly to treat.

The plan will afford us the ability to provide you with the best possible dental treatment, using the most up to date, state of the art materials and technology, whilst also allowing us to keep investing in the practice treatments provided and stay up to date with the most modern concepts in dentistry.

Trust us to provide you with the best possible treatments and materials available in dentistry, with the highest level of skill and compassion and without any compromise.

Move away from the limitations of NHS dentistry, join the plan and become part of the Saving Smiles family.

Full details of the options available are set out in our Membership Plan brochure.

Membership is cheaper than pay-as-you-go, has benefits that you are only entitled to if you are a member and encourages you to attend the practice regularly.

We see our membership package as demonstrating our long-term commitment to your dental care.

In the current economic climate, budgeting for your dental care becomes a priority for everyone who wants to be able to continue receiving the best preventative care.

Our plans starting from £17 per month, are designed for patients who wish to attend on a regular basis, to maintain excellent oral health throughout their lives and have the peace of mind that their dental care is covered.

**Saving Smiles is gradually moving away from NHS care and we encourage all adult patients to transition to plan membership.**

## DENTAL MEMBERSHIP PLAN

We want to offer our patients

- The highest standard of dental treatment, every time
- Treatment in a timely manner, free from NHS waiting times
- Use of elite technology, equipment and materials available

## PRACTICE NEWS

**Innovating at Saving Smiles...**  
This year, our team attended the annual dental show, where we explored new advancements, gained knowledge, and sought out innovative solutions.

June also marked our dental nurse Milly's big birthday! The whole team at the practice had a blast putting together this surprise for Milly. We click like family.
